Searching for Mary Schäffer Colleen Skidmore 2017-10-13 Mary Schäffer was a photographer, writer, botanical painter, and mapmaker from Philadelphia, well known for her travels in the Canadian Rockies and Jasper at the turn of the twentieth century. In Searching for Mary Schäffer, Colleen Skidmore takes up Schäffer's own resonant themes—women and wilderness, travel and science—to ask new questions, tell new stories, and reassess the persona of Mary Schäffer imagined in more recent times. Public and private archival collections in the United States and Canada set the stage for this engrossing exploration of Schäffer's creative, collaborative, and competitive enterprise amid the cultural complexities of Philadelphia's science and photography communities, and the scientific, tourist, and Indigenous societies of the Rocky Mountains of Canada. "In this impressive book, Colleen Skidmore uses her considerable skills as a social historian of photography to shed new light on the remarkable life of Mary Schäffer. She knows the stories, the characters, and presents a social history that is fresh and convincing. Skidmore's conclusion is brilliant and will certainly serve as a catalyst for further research and study of Mary Schäffer." Donna Livingstone, President and CEO, Glenbow Museum

Best Climbs Los Angeles Damon Corso 2020-12-01 Best Climbs Los Angeles narrows down the thousands of climbing routes across the 4,500 square miles of Los Angeles County to the absolute best 300 routes. Ecology & Wonder in the Canadian Rocky Mountain Parks World Heritage Site Robert W. Sandford 2010 Ecology and Wonder celebrates Western Canada's breathtaking landscape. The book makes several remarkable claims. The greatest cultural achievement in the mountain region of western Canada may be what has been preserved, not what has been developed. Protecting the spine of the Rocky Mountains will preserve crucial ecological functions. Because the process of ecosystem diminshment and species loss has been slowed, an ecological thermostat has been kept alive. This may well be an important defence against future impacts of climate change in the Canadian West.

Rainy Pass to Fraser River Fred Beckey 2008-06-01 The godfather of North Cascades climbing updates the third of his seminal guides to this wild range. Included are 10 new topos, updated maps, over 100 photographs (75 with route overlays), route information and driving directions. Hikers, scramblers, serious climbers and Northwest rescue organizations, alike, have relied on Fred Beckey's Cascade Alpine Guides for decades to lead them through this wild mountain range. In addition to their comprehensiveness, the books provide a rare combination of aerial photos with route overlays, three-dimensional illustrated maps and climbing topos. The section of the North Cascades covered in this volume is roughly a pie-shaped area bounded by Hwy 97 and the Columbia River to the east, Lake Chelan to the west, and Hwy 20 to the north. Except for glaciers and some year-round snow fields, it's mostly dry, lonesome, open country, with beautiful granite spires jutting to the sky.

Written in the Snows Lowell Skoog 2021-10-01 Century of Northwest wilderness skiing stories by noted expert 150 black-and-white and color photographs Celebrates the friluftsliv, or open-air living spirit, of backcountry skiing In *Written in the Snows*, renowned local skiing historian Lowell Skoog presents a definitive and visually rich history of the past century of Northwest ski culture, from stirring and colorful stories of wilderness exploration to the evolution of gear and technique. He traces the development of skiing in Washington from the late 1800s to the present, covering the beginnings of ski resorts and competitions, the importance of wild places in the Olympic and Cascade mountains (including Oregon's Mount Hood), and the friluftsliv, or open-air living spirit, of backcountry skiing. Skoog addresses how skiing has been shaped by larger social trends, including immigration, the Great Depression, war, economic growth, conservation, and the media. In turn, Northwest skiers have affected their region in ways that transcend the sport, producing local legends like Milnor Roberts, Olga Bolstad, Hans Otto Giese, Bill Maxwell, and more. While weaving his own impressions and experiences into the larger history, Skoog shows that skiing is far more than mere sport or recreation.

Pacific Northwest Adventure Guide Don Young 2009-10-24 A fantastic guide to the best outdoor fun in the Pacific Northwest, covering Oregon,

Washington, Victoria and Vancouver in British Columbia and far northern California. This ever-popular region offers unlimited opportunities for the active traveler, and this book shows you where, when and how to find them. Kayaking, hiking, cycling, trekking, horseback riding, boating and more to fill your days with adventure. Sightseeing, museums, galleries, theaters and picnicking will take care of your "down time." Maps, photos. "Most people are aware that the Space Needle is in Seattle and that the Columbia River Gorge is a must-see on any trip to the Northwest. But where should you turn for information about watching the killer whales (orcas) among Washington's gorgeous San Juan Islands? Fishing along the rugged Oregon coast? Hiking in country said to be frequented by Bigfoot himself? Parasailing over Puget Sound? Engaging some llamas to carry your gear on a camping trip to the high country? And much, much more. "Adventure Guide to the Pacific Northwest" will take you where

you want to go." -- Reader. "Adventure Guide to the Pacific Northwest by Don & Marjorie Young is a Hunter Travel Guide which I can also highly recommend. We love traveling in the Pacific Northwest but there is so very much to see I couldn't imagine how they could get it all into one book, but they have done a very good job of it! The organization of the book makes it easy to find just what you want in each area from restaurants and places to stay in all price ranges, tours, camping, information sources, maps, etc. I especially like the sections called Adventures which have separate categories for on foot, horseback, wheels, water, and snow. This is a guide worth having and nominally priced." -- Bonnie Neely
