The Night of Broken Glass

Uta Gerhardt 2021-09-11

November 9th 1938 is widely seen as a violent turning point in Nazi Germany's assault on the Jews. An estimated 400 Jews lost their lives in the anti-Semitic pogrom and more than 30,000 were imprisoned or sent to concentration camps, where many were brutally mistreated. Thousands more

fled their homelands in Germany and Austria, shocked by what they had seen, heard and experienced. What they took with them was not only the pain of saying farewell but also the memory of terrible scenes: attacks by mobs of drunken Nazis, public humiliations, burning synagogues, inhuman conditions in overcrowded prison cells and concentration

camp barracks. The reactions of neighbours and passersby to these barbarities ranged from sympathy and aid to scorn, mockery, and abuse. In 1939 the Harvard sociologist Edward Hartshorne gathered eyewitness accounts of the Kristallnacht from hundreds of Jews who had fled, but Hartshorne joined the Secret Service shortly afterwards and the accounts he gathered were forgotten - until now. These eyewitness testimonies - published here for the first time with a Foreword by Saul Friedländer, the Pulitzer Prize historian and Holocaust survivor - paint a harrowing picture of everyday violence in one of Europe's darkest moments. This unique and disturbing document will be of great interest to anyone interested in modern history, Nazi Germany and the historical experience of the Jews.

Learning from the Germans

Susan Neiman 2019-08-27 As an increasingly polarized America fights over the legacy of racism, Susan Neiman, author of the contemporary philosophical classic *Evil in Modern Thought*, asks what we can learn from the Germans about confronting the evils of the past In the wake of white nationalist attacks, the ongoing debate over reparations, and the controversy surrounding Confederate monuments and the contested memories they evoke, Susan Neiman's *Learning from the Germans* delivers an urgently needed perspective on how a country can come to terms with its historical wrongdoings. Neiman is a white woman who came of age in the civil rights-era South and a Jewish woman who has spent much of her adult life in Berlin. Working from this unique

perspective, she combines philosophical reflection, personal stories, and interviews with both Americans and Germans who are grappling with the evils of their own national histories.

Through discussions with Germans, including Jan Philipp Reemtsma, who created the breakthrough *Crimes of the Wehrmacht* exhibit, and Friedrich Schorlemmer, the East German dissident preacher, Neiman tells the story of the long and difficult path Germans faced in their effort to atone for the crimes of the Holocaust. In the United States, she interviews James Meredith about his battle for equality in Mississippi and Bryan Stevenson about his monument to the victims of lynching, as well as lesser-known social justice activists in the South, to provide a compelling picture of the work contemporary Americans are doing to confront our violent history. In clear and gripping prose, Neiman urges us to consider the nuanced forms that evil can assume, so that

we can recognize and avoid them in the future.

Holocaust and Human Behavior Facing History and Ourselves 2017-03-24

Denying the Holocaust

Deborah E. Lipstadt
2012-12-18 The denial of the Holocaust has no more credibility than the assertion that the earth is flat. Yet there are those who insist that the death of six million Jews in Nazi concentration camps is nothing but a hoax perpetrated by a powerful Zionist conspiracy. Sixty years ago, such notions were the province of pseudohistorians who argued that Hitler never meant to kill the Jews, and that only a few hundred thousand died in the camps from disease; they also argued that the Allied bombings of Dresden and other cities were worse than any

Nazi offense, and that the Germans were the “true victims” of World War II. For years, those who made such claims were dismissed as harmless cranks operating on the lunatic fringe. But as time goes on, they have begun to gain a hearing in respectable arenas, and now, in the first full-scale history of Holocaust denial, Deborah Lipstadt shows how—despite tens of thousands of living witnesses and vast amounts of documentary evidence—this irrational idea not only has continued to gain adherents but has become an international movement, with organized chapters, “independent” research centers, and official publications that promote a “revisionist” view of recent history. Lipstadt shows how Holocaust denial thrives in the current atmosphere of value-relativism, and argues that this chilling attack on the factual record not only threatens Jews but undermines the very tenets of objective scholarship that support our faith in historical knowledge. Thus the movement

has an unsuspected power to dramatically alter the way that truth and meaning are transmitted from one generation to another.

Teaching for Historical Literacy Matthew T. Downey
2015-07-30 Teaching for Historical Literacy combines the elements of historical literacy into a coherent instructional framework for teachers. It identifies the role of historical literacy, analyzes its importance in the evolving educational landscape, and details the action steps necessary for teachers to implement its principles throughout a unit. These steps are drawn from the reflections of real teachers, grounded in educational research, and consistent with the Common

Core State Standards. The instructional arc formed by authors Matthew T. Downey and Kelly A. Long takes teachers from start to finish, from managing the prior learning of students to developing their metacognition and creating synthesis at the end of a unit of study. It includes introducing topics by creating a conceptual overview, helping students collect and analyze evidence, and engaging students in multiple kinds of learning, including factual, procedural, conceptual, and metacognitive. This book is a must-have resource for teachers and students of teaching interested in improving their instructional skills, building historical literacy, and being at the forefront of the evolving field of history education.

The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos, 1933-1945

2012-05-04 This volume offers a comprehensive account of how the Nazis conducted the Holocaust throughout the scattered towns and villages of Poland and the Soviet Union. It covers more than 1,150 sites, including both open and closed ghettos. Regional essays outline the patterns of ghettoization in 19 German administrative regions. Each entry discusses key events in the history of the ghetto; living and working conditions; activities of the Jewish Councils; Jewish responses to persecution; demographic changes; and details of the ghetto's liquidation. Personal

testimonies help convey the character of each ghetto, while source citations provide a guide to additional information. Documentation of hundreds of smaller sites--previously unknown or overlooked in the historiography of the Holocaust--make this an indispensable reference work on the destroyed Jewish communities of Eastern Europe.

[Israeli Holocaust Research](#)

Boaz Cohen 2013 An exploration of the development of Holocaust research in Israel, this book ranges from the consolidation of Holocaust research as an academic subject in the late 1940s to the establishment of Yad Vashem and beyond. Research on the story of historiography is often a work on books, on the "final products" that fill academic bookshelves yet, in Israeli Holocaust Research, Boaz Cohen illustrates that the evolution of Holocaust research in Israel has a more human element to it. Drawing on

knowledge gained through seven years of work in ten major archives in Israel, the author reveals a previously unseen picture of the development of Israeli Holocaust research "from below," and of the social and cultural forces influencing its character. In doing so, a new facet to the picture emerges, of the story beyond the archive and the people who see Holocaust research as their mission and responsibility. This book will be a fascinating addition to the study of Holocaust research and will be of particular interest to students of history, historiography and Jewish studies

The Diary of a Young Girl
Anne Frank 2010-09-15 THE DEFINITIVE EDITION •
Discovered in the attic in which she spent the last years of her life, Anne Frank's remarkable diary has since become a world classic—a powerful reminder of the horrors of war and an eloquent testament to the human spirit. Updated for the

75th Anniversary of the Diary's first publication with a new introduction by Nobel Prize-winner Nadia Murad "The single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were betrayed to the Gestapo, they and another family lived cloistered in the "Secret Annex" of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling

self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.

The Protocols of the Learned Elders of Zion

Sergei Nilus 2019-02-26 "The Protocols of the Elders of Zion" is almost certainly fiction, but its impact was not. Originating in Russia, it landed in the English-speaking world where it caused great consternation. Shed[s] light on the historic events surrounding the

Holocaust from place, space, and environment-oriented perspectives.” —Rudi Hartmann, PhD, Geography and Environmental Sciences, University of Colorado This book explores the geographies of the Holocaust at every scale of human experience, from the European continent to the experiences of individual human bodies. Built on six innovative case studies, it brings together historians and geographers to interrogate the places and spaces of the genocide. The cases encompass the landscapes of particular places (the killing zones in the East, deportations from sites in Italy, the camps of Auschwitz, the ghettos of Budapest) and the intimate spaces of bodies on evacuation marches. Geographies of the Holocaust puts forward models and a research agenda for different ways of visualizing and thinking about the Holocaust by examining the spaces and places where it was enacted and experienced. “An excellent collection of scholarship and a model of interdisciplinary

collaboration . . . The volume makes a timely contribution to the ongoing emergence of the spatial humanities and will undoubtedly advance scholarly and popular understandings of the Holocaust.” —H-HistGeog “An important work . . . and could be required reading in any number of courses on political geography, GIS, critical theory, biopolitics, genocide, and so forth.” —Journal of Historical Geography “Both students and researchers will find this work to be immensely informative and innovative . . . Essential.” —Choice

Comic Books, Graphic Novels and the Holocaust

Ewa Stańczyk 2020-04-28 This book analyses the portrayals of the Holocaust in newspaper cartoons, educational pamphlets, short stories and graphic novels. Focusing on recognised and lesser-known illustrators from Europe and beyond, the volume looks at autobiographical and fictional accounts and seeks to paint a broader picture of Holocaust comic strips from the 1940s to

the present. The book shows that the genre is a capacious one, not only dealing with the killing of millions of Jews but also with Jewish lives in war-torn Europe, the personal and transgenerational memory of the Second World War and the wider national and transnational legacies of the Shoah. The chapters in this collection point to the aesthetic diversity of the genre which uses figurative and allegorical representation, as well as applying different stylistics, from realism to fantasy. Finally, the contributions to this volume show new developments in comic books and graphic novels on the Holocaust, including the rise of alternative publications, aimed at the adult reader, and the emergence of state-funded educational comics written with young readers in mind. This book was originally published as a special issue of the *Journal of Modern Jewish Studies*.

Holocaust Justice Michael J. Bazyler 2005-04-01 The Holocaust was not only the greatest murder in history; it was also the greatest theft. Historians estimate that the Nazis stole roughly \$230 billion to \$320 billion in assets (figured in today's dollars), from the Jews of Europe. Since the revelations concerning the wartime activities of the Swiss banks first broke in the late 1990s, an ever-widening circle of complicity and wrongdoing against Jews and other victims has emerged in the course of lawsuits waged by American lawyers. These suits involved German corporations, French and Austrian banks, European insurance companies, and double thefts of art—first by the Nazis, and then by museums and private collectors refusing to give them up. All of these injustices have come to light thanks to the American legal system. *Holocaust Justice* is the first book to tell the complete story of the legal

campaign, conducted mainly on American soil, to address these injustices. Michael Bazyler, a legal scholar specializing in human rights and international law, takes an in-depth look at the series of lawsuits that gave rise to a coherent campaign to right historical wrongs. Diplomacy, individual pleas for justice by Holocaust survivors and various Jewish organizations for the last fifty years, and even suits in foreign courts, had not worked. It was only with the intervention of the American courts that elderly Holocaust survivors and millions of other wartime victims throughout the world were awarded compensation, and equally important, acknowledgment of the crimes committed against them. The unique features of the American system of justice—which allowed it to handle claims that originated over fifty years ago and in another part of the world—made it the only forum in the world where Holocaust claims could be heard. Without the lawsuits brought by

American lawyers, Bazyler asserts, the claims of the elderly survivors and their heirs would continue to be ignored. For the first time in history, European and even American corporations are now being forced to pay restitution for war crimes totaling billions of dollars to Holocaust survivors and other victims. Bazyler deftly tells the unfolding stories: the Swiss banks' attempt to hide dormant bank accounts belonging to Holocaust survivors or heirs of those who perished in the war; German private companies that used slave laborers during World War II—including American subsidiaries in Germany; Italian, Swiss and German insurance companies that refused to pay on prewar policies; and the legal wrangle going on today in American courts over art looted by the Nazis in wartime Europe. He describes both the human and legal dramas involved in the struggle for restitution, bringing the often-forgotten voices of Holocaust survivors to the forefront. He also

addresses the controversial legal and moral issues over Holocaust restitution and the ethical debates over the distribution of funds. With an eye to the future, Bazylar discusses the enduring legacy of Holocaust restitution litigation, which is already being used as a model for obtaining justice for historical wrongs on both the domestic and international stage.

Different Horrors, Same

Hell Myrna Goldenberg

2013-05-15 Different Horrors, Same Hell brings together a variety of essays demonstrating the breadth of contributions that feminist theory and gender analysis make to the study of the Holocaust. The collection provides new perspectives on central works of Holocaust scholarship and representation, from the books of Hannah Arendt and Ruth Klüger to films such as Claude Lanzmann's Shoah and Steven Spielberg's Schindler's List. Interviews with survivors and their descendants draw new attention to the significance of women's roles and family

structures during and in the aftermath of the Holocaust, and interviews and archival research reveal the undercurrents of sexual violence within the Final Solution. As Doris Bergen shows in the book's first chapter, the focus on women's and gender issues in this collection "complicates familiar and outworn categories, and humanizes the past in powerful ways."

Writing in the Social Studies

Aaron Pribble 2021-03-15

Writing in the Social Studies is a practical guide for educators. On each page are strategies, tips, and takeaways for teachers to implement in their classroom, while every chapter concludes with helpful handouts to distribute directly to students. Beginning with a framework and pacing guide, Writing in the Social Studies examines foundational, academic, and real-world writing, concluding with a methodology for grading and a spirited plea for teachers to write themselves. Teachers who believe in teaching "skills

through content" finally have a blueprint from which to work. Those who understand it is imperative students graduate with the ability to think critically and express a point of view now have a vehicle with which to achieve their goals. Writing in the Social Studies will be the first book to tackle this crucial yet neglected corner of the curriculum. There is a desperate need for professional development in this area, and therefore also tremendous opportunity. It is a professional imperative that social studies educators teach a variety of writing skills through content. As a result they should have access to a resource which clearly and engagingly shows them how. This is Writing in the Social Studies.

FDR and the Jews Richard Breitman 2013-03-19 A contentious debate lingers over whether Franklin Delano Roosevelt turned his back on the Jews of Hitler's Europe. FDR and the Jews reveals a concerned leader whose efforts on behalf of Jews were far

greater than those of any other world figure but whose moral leadership was tempered by the political realities of depression and war. *Holocaust Education* Stuart Foster 2020-07-06 Teaching and learning about the Holocaust is central to school curriculums in many parts of the world. As a field for discourse and a body of practice, it is rich, multidimensional and innovative. But the history of the Holocaust is complex and challenging, and can render teaching it a complex and daunting area of work. Drawing on landmark research into teaching practices and students' knowledge in English secondary schools, *Holocaust Education: Contemporary challenges and controversies* provides important knowledge about and insights into classroom teaching and learning. It sheds light on key challenges in Holocaust education, including the impact of misconceptions and misinformation, the dilemmas of using atrocity images in the

classroom, and teaching in ethnically diverse environments. Overviews of the most significant debates in Holocaust education provide wider context for the classroom evidence, and contribute to a book that will act as a guide through some of the most vexed areas of Holocaust pedagogy for teachers, teacher educators, researchers and policymakers.

The Anatomy of the Holocaust Raul Hilberg† 2019-11-01 Though best known as the author of the landmark 1961 work *The Destruction of the European Jews*, the historian Raul Hilberg produced a variety of archival research, personal essays, and other works over a career that spanned half a century. *The Anatomy of the Holocaust* collects some of Hilberg's most essential and groundbreaking

writings—many of them published in obscure journals or otherwise inaccessible to nonspecialists—in a single volume. Supplemented with commentary and notes from Hilberg's longtime German editor and his biographer, it not only offers a multifaceted look at the man and the scholar, but also traces the evolution of Holocaust research from a marginal subdiscipline into a diverse and vital intellectual project.

Lessons and Legacies XII

Wendy Lower 2017-02-15 *Lessons and Legacies XII* explores new directions in research and teaching in the field of Holocaust studies. The essays in this volume present the most cutting-edge methods and topics shaping Holocaust studies today, from a variety of disciplines: forensics, environmental history, cultural studies, religious studies, labor history, film studies, history of medicine, sociology, pedagogy, and public history. This rich compendium reveals how far Holocaust studies have reached into cultural studies,

perpetrator history, and comparative genocide history. Scholars, laypersons, teachers, and the myriad organizations devoted to Holocaust memorialization and education will find these essays useful and illuminating.

Becoming Hitler Thomas Weber 2017-11-09 In *Becoming Hitler*, Thomas Weber continues from where he left off in his previous book, *Hitler's First War*, stripping away the layers of myth and fabrication in Hitler's own tale to tell the real story of Hitler's politicisation and radicalisation in post-First World War Munich. It is the gripping account of how an awkward and unemployed loner with virtually no recognisable leadership qualities and fluctuating political ideas turned into the charismatic, self-assured, virulently anti-Semitic leader with an all-or-nothing approach to politics with whom the world was soon to become tragically familiar. As Weber clearly shows, far from the picture of a fully-formed political leader which

Hitler wanted to portray in *Mein Kampf*, his ideas and priorities were still very uncertain and largely undefined in early 1919 - and they continued to shift until 1923.

History and Memory: Lessons from the Holocaust Saul Friedländer 2014-10-01 This ePaper, *History and Memory: lessons from the Holocaust*, presents the original text of the Leçon inaugurale delivered by Professor Saul Friedländer on 23 September 2014 at the Maison de la Paix, which marked the opening of the academic year of the Graduate Institute, Geneva. The lecture highlights an original analysis of the evolution of German memory since the end of World War II and its consequences on the writing of history. Generations of historians have been particularly marked in a differentiated manner, depending on their personal proximity to the war, but also on collective representations conveyed by film and television in a globalised world. Saul Friedländer is Emeritus

Professor at the University of California Los Angeles (UCLA). He won numerous awards, including the Pulitzer Prize in 2008 for his book *The Years of Extermination: Nazi Germany and the Jews, 1939-1945*. In 1963, he received his PhD from the Graduate Institute of International Studies in Geneva, where he taught until 1988.
